

ALISTAIR MCINTYRE

SOFTWARE DEVELOPER

EXPERIENCE

JAN '18
|
NOW

Junior Software Developer

Croplogic

Primary focus as a Junior Developer working on mobile applications built using Google's new open source, cross-platform mobile framework Flutter. This role has required learning quite a few new technologies (Dart & Flutter, Objective C), while also strengthening my existing skills, such as problem-solving, version control(git) and my proficiency with Python.

JAN '13
|
NOV '16

Nightfill Assistant

Countdown Supermarkets

Working as part of a team to restock the shelves, and also independently, being responsible for taking down the liquor displays at the end of each week and building the displays for the next weeks specials.
